Dear Shareholder,

I am pleased to announce our preliminary results for the year ended 31 December 2013 and to invite you to our Annual General Meeting on 16 May 2014.

Results for the year

I am delighted to report that we have made further progress both in operating profits from our property portfolio, and through returns from the sale of property assets and realisations from our equity portfolio.

Property: Our gross property rental income rose 16% to £2,731,000 (2012 £2,351,000), with all of this increase being due to the performance of our commercial portfolio. This growth includes the effect of a full year's income from the warehouse unit in Bedford purchased in August 2012 and from our warehouse unit in Milton Keynes purchased in November 2012. In addition, two new units were purchased in the year. The first was a retail warehouse property in Bicester let to Wickes Building Supplies Limited and the second a modern office investment in Cardiff let to Arriva Trains Limited. We have been very pleased with the performance of the portfolio with the only void, arising at the year end, being a single floor of our office building in Bristol. There were no bad debts in the period. The sale of two of our smaller assets at auction in December 2013 yielded total gross proceeds of £2,370,000 that were 31% in excess of the June 2013 valuations. The intention is to reinvest these funds into a mixture of both secure income assets and assets which offer the opportunity for further enhancement thus providing both capital and income growth. We have been successful at identifying property investments at attractive yields that sit between private investors and larger corporate property investors and intend to continue taking advantage of our strong financial position and ability to move fast to exploit such opportunities. The property portfolio showed a net valuation gain of £1,243,000 for the year. Since the year end we have sold one of our residential properties at its year end valuation.

Equities: Our income of £234,000, coupled with a realised net gain of £146,000 and an unrealised net gain of £623,000, are a result of the strength of our portfolio, and we have outperformed the Wealth Managers Association balanced index by 3%. We released £1,175,000 in net cash from this portfolio during the year.

Administrative expenses: Our ongoing administrative expenses increased by 11% in 2013, due primarily to the cost of a handover period for our incoming chief executive. Our costs remain tightly controlled as evidenced by their average increase of only 1.5% pa over the last three years.

Financial highlights: Our total profit for the year showed a 35% improvement on 2012, driven particularly by the capital performance of our property and equity investment portfolios. Our profit on revenue activities reduced to £2,921,000 (2012 £3,720,000) as the 2012 performance was significantly affected by the realised gains on investment property of £1,552,000. Excluding these realised gains on investment property, the underlying profit on revenue activities rose by 16%. Our year end net asset value per share increased to 821p (2012 759p). Our year end cash position was £3,128,000 (2012 £3,274,000), whilst readily realisable equity investments totalled £5,227,000 (2012 £5,713,000). During the year we took out two medium term loans and the year end balance was £4,000,000 (2012 nil)

Dividend

We are recommending a final dividend of 21.25p per share (2012 19.80p) to be paid on 30 May 2014 to shareholders registered on 2 May 2014, making a total of 33.75p for the year (2012 31.80p). This increase of 6% for the year continues our recent record of dividend increases well in excess of inflation.

Board

As you are aware Jonathan Kinglerlee retired from the Board on 31 July 2013 after 18 years. We are very grateful to Jonathan for his loyal service and contribution to the group. Simon Gill joined the board on 1 April 2013 as property director, bringing with him a wealth of experience in the property sector. Simon also assumed the role of chief executive upon Jonathan's retirement and has been instrumental in driving the group's recent active acquisition strategy.

Outlook

We are very pleased with the results for the year and remain optimistic that we start 2014 from a position of strength upon which we hope to build through further attractive acquisitions. We have set ourselves some challenging objectives for 2014 and we expect that our actions will continue to improve shareholder value via increased dividends and asset values.

On 26 March 2014 the directors declared a property income distribution of £1,098,000, 21.25p per share (2012 £1,023,000, 19.80p per share) payable on 30 May 2014 to shareholders registered at 2 May 2014.

3 Earnings per share

The calculation of earnings per share is based on the total profit for the year of £4,856,000 (2012 £3,594,000) and on 5,167,240 shares (2012 5,167,240) which is the weighted average number of shares in issue during the year ended 31 December 2013

and throughout the period since 1 January 2013. There are no dilutive instruments.

In order to draw attention to the impact of valuation gains and losses which are included in the income statement but not available for distribution under the company's articles of association, an adjusted earnings per share based on the profit available for distribution of £2,921,000 (2012 £3,720,000) has been calculated.

In accordance with IAS 40 the carrying value of investment properties is their fair value as determined by external valuers. This valuation has been conducted by Knight Frank LLP, as external valuers, and has been prepared as at 31 December 2013, in accordance with the Appraisal & Valuation Standards of the Royal Institution of Chartered Surveyors, on the basis of market value. This value has been incorporated into the financial statements.

The independent valuation of all property assets uses market evidence and also includes assumptions regarding income expectations and yields that investors would expect to achieve on those assets over time. Many external economic and market factors, such as interest rate expectations, bond yields, the availability and cost of finance and the relative attraction of property against other asset classes, could lead to a reappraisal of the assumptions used to arrive at current valuations. In adverse conditions, this reappraisal can lead to a reduction in property values and a loss in net asset value.
